

United Nations Economic and Social Council

MetMUNC XLIX

Topic: Welcome Letter

Chairpeople: Jasbina Sabharwal, Abigail Ruthen, and Noah

Bernstein

Distinguished Delegates,

It is with great pleasure that we welcome you to the United Nations Economic and Social Council. Established in 1945, ECOSOC aims to promote higher standards of living, employment, and pushes for both economic and social progress.

My name is Jasbina Sabharwal and I am a senior here at POBJFKHS. This is my fourth year in the club and my third time chairing. I am also the Public Relations Secretary for Model UN. Outside of Model UN, I am a member of DECA, Science Olympiads, and I am on the Varsity Girls Tennis and Badminton Team. In college, I look forward to studying biology and business, but most of all, I am so excited to see how our conference goes, with debates, resolutions, and the amount of fun we all are going to have!!

My name is Noah Bernstein and I am a junior here at POBJFKHS and this is my third year in MUN. This will be my first time chairing! Outside of MUN, I am a big sports fanatic primarily of hockey; my favorite teams are the Islanders, Knicks and Rams. I also participate in my school's radio station and I am in an acapella group at the school! When I go to college, I hope to study broadcasting and sports media! I am also interested in traveling, writing, walking and superhero movies and tv. I'm so excited to be chairing, meeting you, and seeing your ideas in action!

During this conference, ECOSOC has decided on two important topics: **The SocioEconomic Effects of the Global Pandemic and Prison Reform**. We hope that all delegates conduct research on their country's views and discover innovative ideas to incorporate into resolutions. One thing we ask is that delegates respect one another and their respective views. We look forward to meeting and getting to know you all during our two days together. If you have any questions, please feel free to ask and reach out to us at: jasbinasabharwal@gmail.com, nbernstein22@gmail.com, and aruthen0405@gmail.com.

Sincerely,

Jasbina Sabharwal
